Specifically, Apple's decision to make Gatekeeper even more difficult crack is a significant step forward for everyday Mac users.. Timer is the next best thing It adds a stopwatch, timer, and alarm to your Mac.. You can track how much time you spend on tasks, start a countdown timer, or even use your Mac to wake you up if you take a nap in the office.. In macOS Catalina, the company has taken this to all-new levels by introducing beneficial security changes that make it even harder for miscreants to play havoc with our computers.. Over the years, Apple has put its vast resources into making it's operating systems more secure for end-users.
